

Justice, freedom,equality

Fight for justice and freedom!

Justice is the best interest of mankind
—Webster

Fight for justice and freedom!

A dramatic illustration set against a dark, cloudy sky. In the upper portion, a woman wearing a blindfold holds a long sword in one hand and a set of scales in the other. Below her, a circular frame contains a portrait of a man with a mustache, identified as Roman Roland. The overall mood is somber and symbolic.

Freedom comes from the most expensive of all riches
—Roman Roland

Fight for justice and freedom!

The corner stone of the great hall was not higher
than the lowest cornerstone.

—Khalil gibran

Fight for justice and freedom!

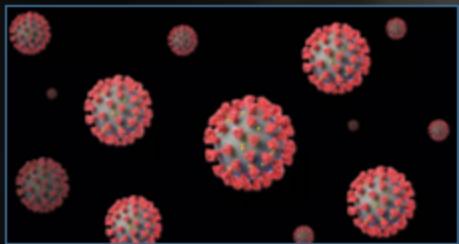

2020 is a turbulent year for the world

Australia fire

East Africa

A new global pandemic

U.S. stocks fusing

The Tokyo Olympics
were suspended

Eu lock up

The foreign trade
of the third world
countries is in trouble

Global oil war

Fight for justice and freedom!

ZORRO flashes his sword

In order to get through this difficult time, we will have to carry heavy financial and even debt pressure for a long time to come, constantly running for food and clothing, no longer have any freedom to look at the poem and the distance.

We (the Internet geeks active in the dark web) couldn't bear it any more. We decided to take ZORRO's sword of justice, punish the evil, fight the strong and help the weak, become the light bringers, save the people from the fire and water, like ZORRO to return people to justice, freedom, equality -- this is the origin of ZORRO (ZRO).

Fight for justice and freedom!

What is Zorro(ZRO)

A new electronic trust system

Digital currency payment system

The trusted distribution platform of the new trust paradigm

A new architecture of multi-level chain structure and four-layer system structure

Global point-to-point cryptographic transport and transaction parallel model

New community committee selection and management system

The performance is far superior to the market level of the block chain bottom public chain

Fight for justice and freedom!

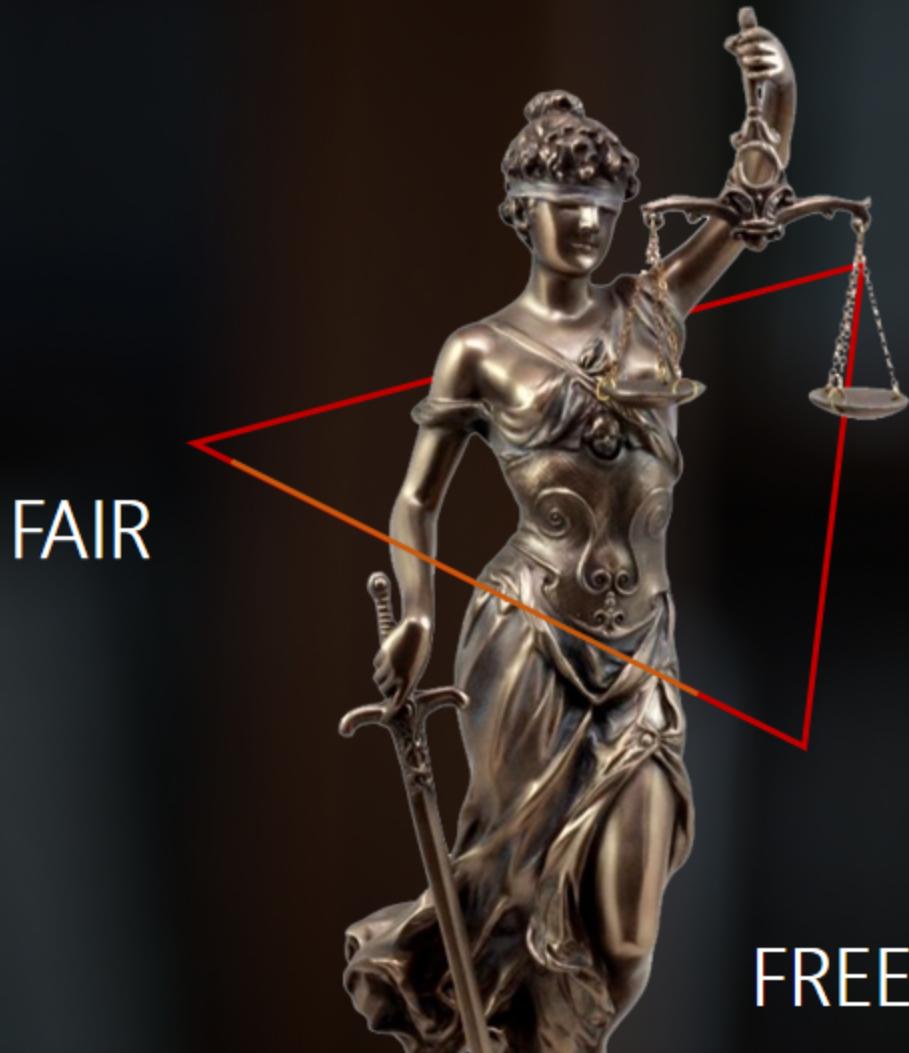

Zorro purpose

Zorro hope distributed storage based on block chain technology, all information will be not tamper with the excellent properties such as economic and social comprehensive digital chain, digital approval and the digital trade and investment, and implementation of all economic activity in the real fair, fair and open, put an end to any unreasonable exploitation and unreasonable deprivation of personal values, to build a new ecological environment there is no room for fraud, let everybody can in which free unlimited wealth value, creative freedom and liberty and freedom of thought!

Fight for justice and freedom!

Zorro design concept

EQUALITY

FAIR

FREE

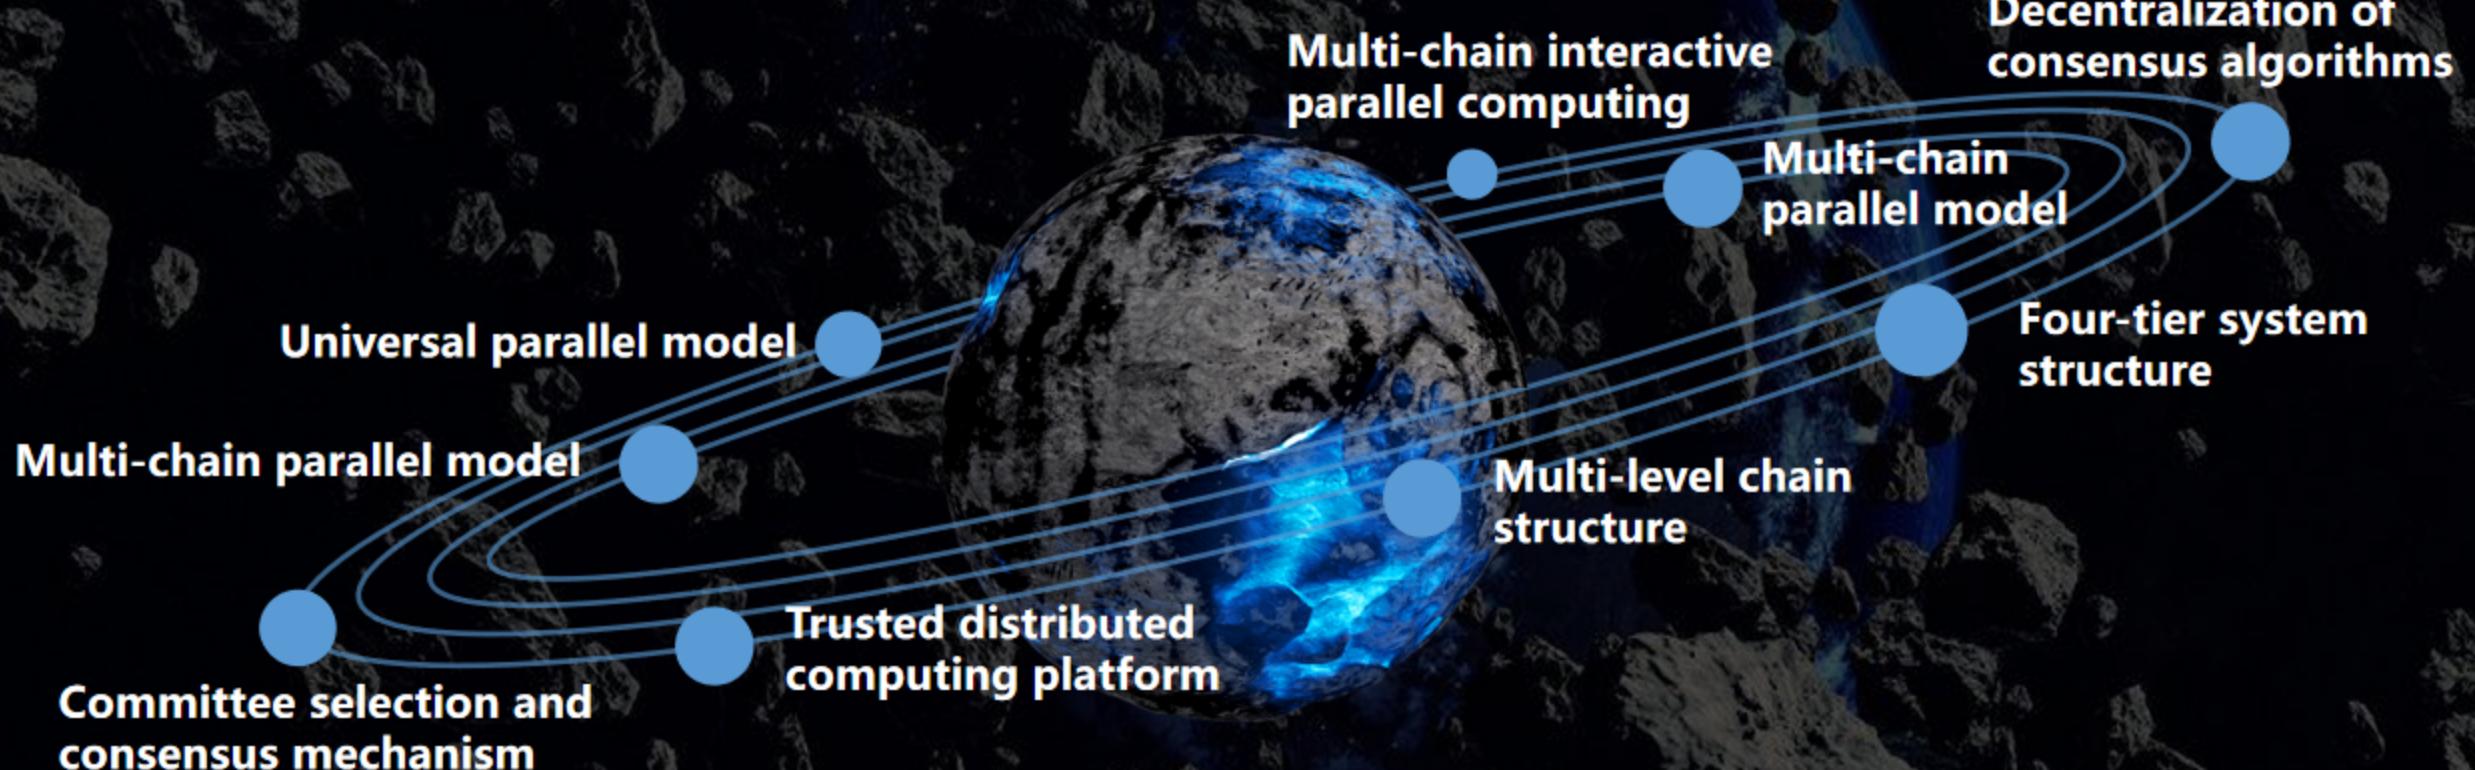

Build an intelligent evolutionary ecology by linking and driving the world with trust.

It not only carries a currency or an industry, but it also brings true, comprehensive fairness, justice and openness to the world, enabling every participant to enjoy full freedom of privacy, wealth and ideas.

Zorro advantage

**Quickly to
the account**

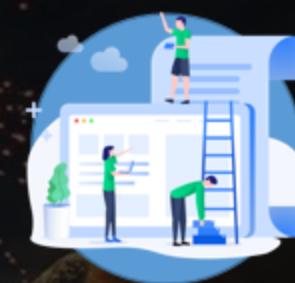

**Quick
payment**

**Cross-border
payments**

**Universal
legal tender**

**Information
source**

Zorro USES block chain technology to solve various pain points in the global industry and build a "global block chain free trade zone". In Zorro free trade zone, Zorro provides the underlying block chain infrastructure, and introduces Zorro's Token system as the measurement standard for value transmission of trade activities between small and medium-sized merchants.

Fight for justice and freedom!

Zorro development

Deep development of block chain technology, relying on the platform's vast and outstanding comprehensive ecological function development service network, to build the block chain world's comprehensive economic platform, for the world's economy and trade and the entire payment environment to provide rapid, confidential, safe transaction services.

The game

Ecological participants provide access to traditional information technology, large-scale business applications, and a new financial infrastructure

Fight for justice and freedom!

Zorro service system

Decentralized financial services

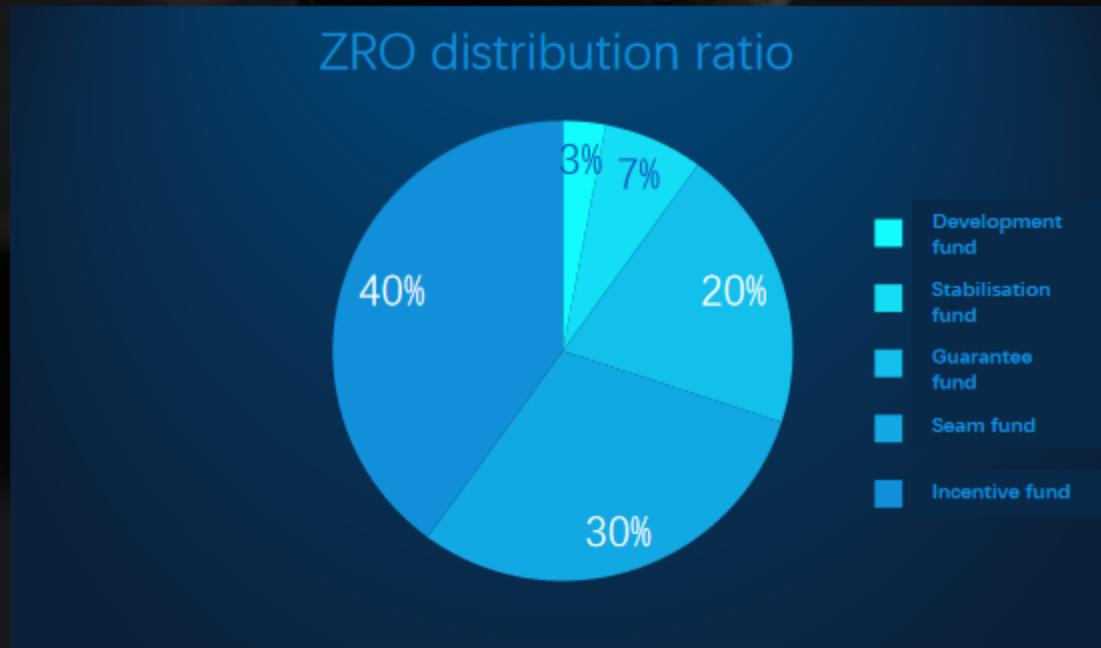

Decentralized user system

1. Open financial agreement
2. Hierarchical consensus protocol stack to ensure protocol, contract, data and network security.
3. Dynamic and extensible computing and storage capacity, short confirmation time, and effective solution to network congestion.
4. Develop diverse application scenarios to attract a large number of developers
5. Make all data public and transparent, so that users have a wider participation.
6. Various applications are interconnected and integrated, so that capital flow, information flow, trust flow and logistics flow on and off the chain are integrated.
